

Hydraulic accessories for fountains

AIR INTAKE FOR TECHNICAL ROOMS

AISI304 | AISI316 | 100% METAL | PLASTIC FREE | INFINITE LIFETIME | MADE IN ITALY

- Made of AISI304 stainless steel (AISI316 on request)
- Suitable for the natural ventilation of technical rooms
- Different height on request

Made of AISI304 stainless steel (AISI316 on request), it is suitable for the natural ventilation of underground technical rooms of the fountain without outward openings.

Its shape is designed to provide pleasant aesthetics and a limited required space.

It is complete with bottom flanged anchorage and closing cap to avoid rain water intake.

Especially recommended for technical rooms in which the proper and correct functioning of hydraulic and electronic devices must be long lasting and safeguarded.

For proper ventilation, two air intakes are necessary.
