

Boxes for dry fountains

BOX 360

AISI304 | AISI316 | Ø 360 mm | EASY MOUNTING | INFINITE LIFETIME | LIGHTS UNDER PLATE | WALKABLE | MADE IN ITALY

- Made of AISI304 (AISI316 on request)
- 360 mm top diameter
- Bottom electrical and hydraulic connections
- 1 - 3 adjustable lights under the plate, with vandal resistant protection
- Available in the dynamic version
- Walkable upper plate (suitable for vehicles passage on request)

Box for dry fountains, made of AISI304 stainless steel, to be floor built-in.

Dimensions: 382 mm high or 460 mm high (connections included) in the dynamic version – 360 mm of max diameter – 5 mm thick upper walkable plate with anchoring flange.

Complete with both hydraulic and electrical bottom connections: this allows for an unconditioned positioning of the box and a height sufficient to stabilize the water flow. Available connections:

- one or more 1” F electrical inlets for the underwater lights and the switching device in the dynamic version;
- one 2” F (or 2 1/2” F) nozzle inlet or 1 ¼” F in the dynamic version;
- one 2 ½” F drain outlet.

Suitable for nozzles: Cometa Plus 17/18/20 – Spumeggiante 50 or Cometa Plus 12/14 – Spumeggiante 20 in the dynamic version.

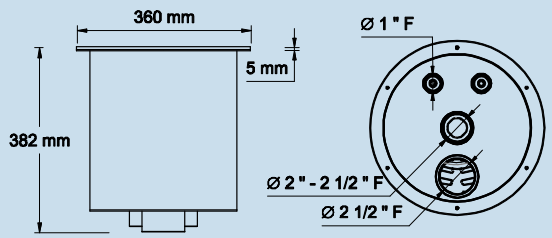

Provided with 1 up to 3 Mizar underwater LED fountain lights mounted under the plate, with the following advantages:

- light protection against acts of vandalism;
- possibility to direct the light towards the water jet;
- absence of water and limestone deposit on the light glass.

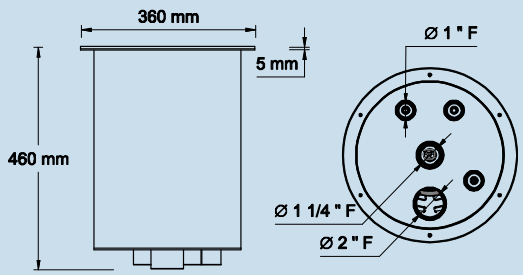

Provided with upper anchoring flange used also as a regulation device to allow for a precise positioning of the box.

Upon request, it can be made of AISI316 stainless steel, with plate suitable for cars passage, with lights mounted at plate level and stainless steel frame suitable for the paving used.
