

Boxes for dry fountains

BOX 400

AISI304 COMPOSITE | AISI316 COMPOSITE | 400 mm | EASY MOUNTING | INFINITE LIFETIME | LIGHTS UNDER PLATE | WALKABLE | MADE IN ITALY

- Made of AISI304 stainless steel (AISI316 on request) and composite material
- 400 mm upper plate side
- Bottom and lateral hydraulic and electrical connections
- 1 or 2 adjustable lights under the plate, with vandal resistant protection
- From 1 up to 5 nozzles in combination
- Walkable upper plate (suitable for vehicles passage on request)

Box for dry fountains, with body made of composite material and AISI304 stainless steel square upper plate (AISI 316 on request), to be floor built -in.

Dimensions: 399 mm high (connections included) – 465,5 mm of max width (connections included) – 5 mm thick upper walkable plate.

Available connections:

- one or more 1” F lateral electrical inlets for the underwater lights and the switching device in the dynamic version;
- one or more 1/2″ F – 1″ F – 1 1/2″ F – 2″ F nozzle bottom inlets;
- one 2 1/2″ F lateral drain outlet.

Suitable for one single nozzle or 3-5 nozzles in combination, such as: 1 central 1″ nozzle and 2 lateral 1/2″ nozzles, 1 central 1″ nozzle and 4 lateral 1/2″ nozzles.

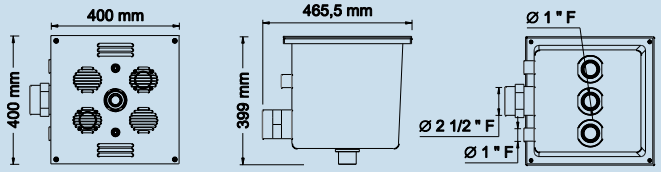

Provided with 1 or 2 Mizar underwater LED fountain lights mounted under the plate, with the following advantages:

- light protection against acts of vandalism;
- possibility to direct the light towards the water jet;
- absence of water and limestone deposit on the light glass.

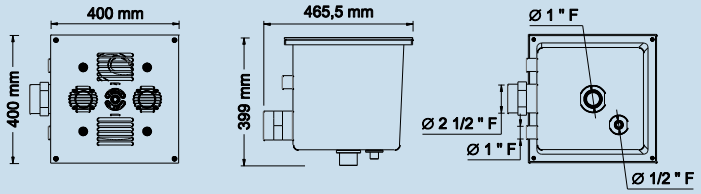

Upon request, it can be made with AISI316 plate, suitable for cars passage, with lights mounted at plate level and “water stop” device.
