CODA DI PAVONE

100% METAL | PLASTIC FREE | INFINITE LIFETIME | MADE IN ITALY

- Made of stainless steel
- 180° vertical water half circle
- Laminar water jet
- Independent from the water level

The Coda di Pavone fountain nozzle is made of stainless steel and it features a 180° water jet opening.

It is independent from the water level.

The effect is a vertical laminar half circle, shaped like the tail of a peacock.

TIPS FOR USE AND APPLICATIONS

An exclusive Cascade offer, the Coda di Pavone is a simple but elegant water effect.

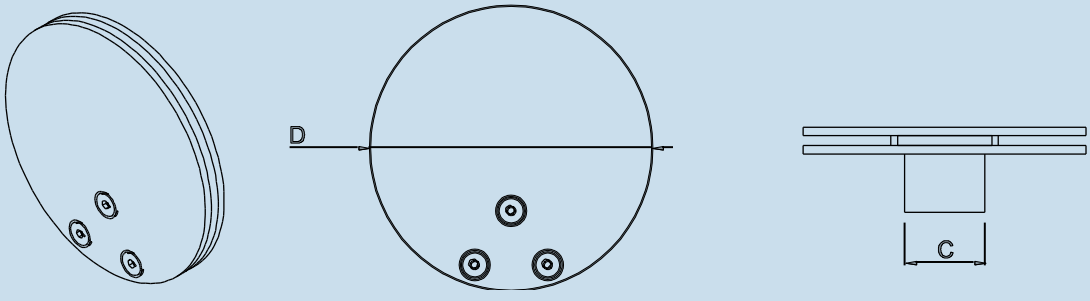

Mounted in groups, it can produce suggestive and pleasant water sceneries.

Contained spurts: the Coda di Pavone nozzle stands out for the very limited water spurts.

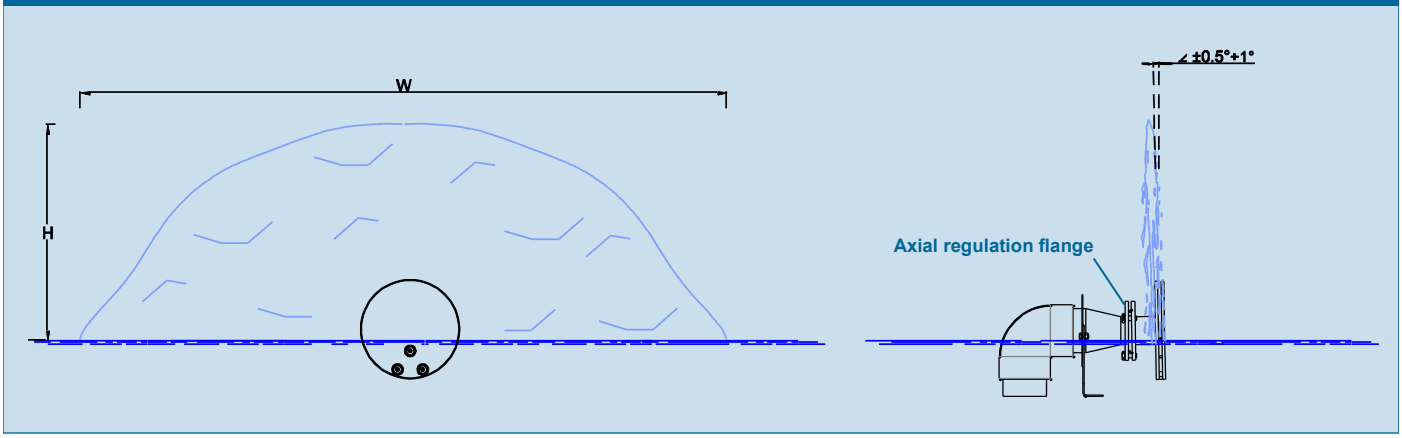

We suggest the use of the axial regulation flange.

Underwater lighting: to enhance the water effect with monochrome or RGBW lighting features we recommend the use of the Mizar underwater LED fountain lights, professional products specific for fountain illumination, of refined design, cutting-edge technology and amazing lighting outcomes.

DIMENSIONS
