

Control systems for dynamic and dancing fountains

DMX CONTROLLER 1024

DMX RDM | 2 x 512 DMX CH | USB | ETHERNET

- Control by DMX-RDM protocol
- 1024 DMX channels available
- USB and Ethernet connections
- APP for remote control

The DMX 1024 Cascade Controller allows programming the entire network of DMX devices that make up even the most complex fountains.

The device allows you to manage up to 1024 DMX channels, is equipped with an internal clock and astronomical calendar, connection via Ethernet and, upon request, remote control via iOS/Android APP and network connection.

Through dedicated software, the device allows you to program a large variety of water and light effects.

The programmed scenographies can be synchronized with the music by integrating the system with the Cascade DMX Music Player.

	DMX CONTROLLER 1024
CODE	**DMX1024**
POWER SUPPLY	5 V - 5,5 Vdc; 0,6 A
DIMENSIONS	160 x 90 x 45 mm
WEIGHT	268 g
OUTPUT PROTOCOL	DMX512/RDM (x2)
MEMORY	Micro SD card, max 32 GB
PROTECTION RATE	IP20
WORKING TEMPERATURE	0° - 50° C
STANDARDS	EC, EMC, ROHS
CONNECTIONS	Type C USB, XLR3, Ethernet, 20-Pin (2x10) Male IDC Socket, battery
