FEED-THROUGH FOR LINER CLOTH

AISI304 | AISI316 | 100% METAL | PLASTIC FREE | INFINITE LIFETIME | MADE IN ITALY

- Made in AISI304 stainless steel (AISI316 on request)
- Wide range of dimensions
- Complete with seals

This feed-through for fountain tanks is suitable for the leakproof passage of pipes and electric cables through walls or tanks covered with liner cloth. Thanks to its material, the AISI304 stainless steel (AISI316 on request), and to the threaded anchorage particularly strengthened, the feed-through for liner is ideal for pipes, also of remarkable dimensions, because its mechanical strength and functionality are guarantee of durability and resistance to vibrations and other stresses.

Available in a wide range of dimensions, from 1” up to 4”. Complete with gaskets.

Brass feed-throughs upon request.
