FEED-THROUGH FOR TANKS

BRASS | 100% METAL | PLASTIC FREE | INFINITE LIFETIME | MADE IN ITALY

- Made of brass
- Ideal for thin walls
- Reinforced anchorage

The hydraulic feed-through for tanks allows the leakproof passage of pipes through thin walls usually made of plastic or metallic materials.
Thanks to its material, brass, and to the threaded anchorage particularly strengthened, the hydraulic feed-through for tanks is ideal for pipes, also of remarkable dimensions, because its mechanical strength and functionality are guarantee of durability and resistance to vibrations and other stresses.
Its peculiar shape makes it easily mountable.
