

Hydraulic accessories for fountains

WATER FLOW REGULATOR

BRASS | 100% METAL | PLASTIC FREE | INFINITE LIFETIME | MADE IN ITALY

- Made of brass
- Millimetric height regulation of the water jet
- Very useful for a perfect balance of the water jets

The flow regulator for fountains, made of brass, allows for the water jet height regulation.

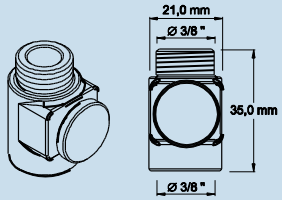

Compared to common commercial valves, its threaded connection allows for a millimetric regulation of the water jet's height.

Particularly useful to perfectly balance the water jets in already existent plants or where it is not possible a structurally balanced hydraulic system.
