

Hydraulic accessories for fountains

PNEUMATIC PUSHBUTTON

AISI304 | AISI316 | BRONZE | FLOOR MOUNT | WALL MOUNT | 100% METAL | PLASTIC FREE | INFINITE LIFETIME | MADE IN ITALY

- In AISI304 stainless steel (AISI316 on request) and bronze
- Floor or wall mounting
- Pneumatic activation

Made of bronze and AISI304 stainless steel (AISI316 on request), the pneumatic pushbutton for fountains can be floor or wall mounted.

It allows the remote system activation in safety, since no active electrical parts are present, thanks to the use of a pneumatic switch interacting with the control panel.

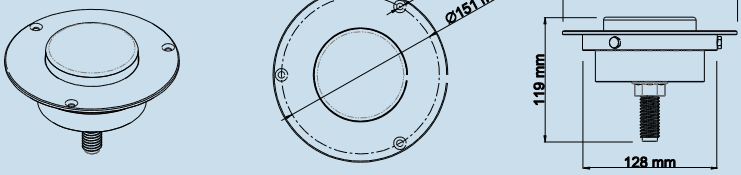

Particularly suitable for interactive dry fountains or when the system needs to be activated from wet areas inside the fountains, in order to make it more attractive.

Thanks to its fine materials and its mechanical structure, this pushbutton is particularly strong and durable.

Fastening through three M6 countersunk head screws.
