

Dry fountains

SMART DRY SYSTEM

PLUG&PLAY | EASY TO INSTALL | DMX | AISI 304 | AISI 316 | WALKABLE | MADE IN ITALY

- Made of AISI304 stainless steel (AISI316 on request)
- Pump, lights, nozzle, accessories and framework included
- Plug&Play, easy to install system
- Repeatable
- DMX controlled

The Smart Dry System is a complete system, ideal for dry fountains with floating floor in which the compensation tank is just below the fountain. It includes the nozzle, the Mizar underwater LED lights, the DMX low voltage submersible pump and the necessary accessories.

Extremely easy to install, thanks to its stainless steel support framework allowing to insert and remove the whole system from above, thus simplifying the access to all the fountain components and the necessary maintenance.

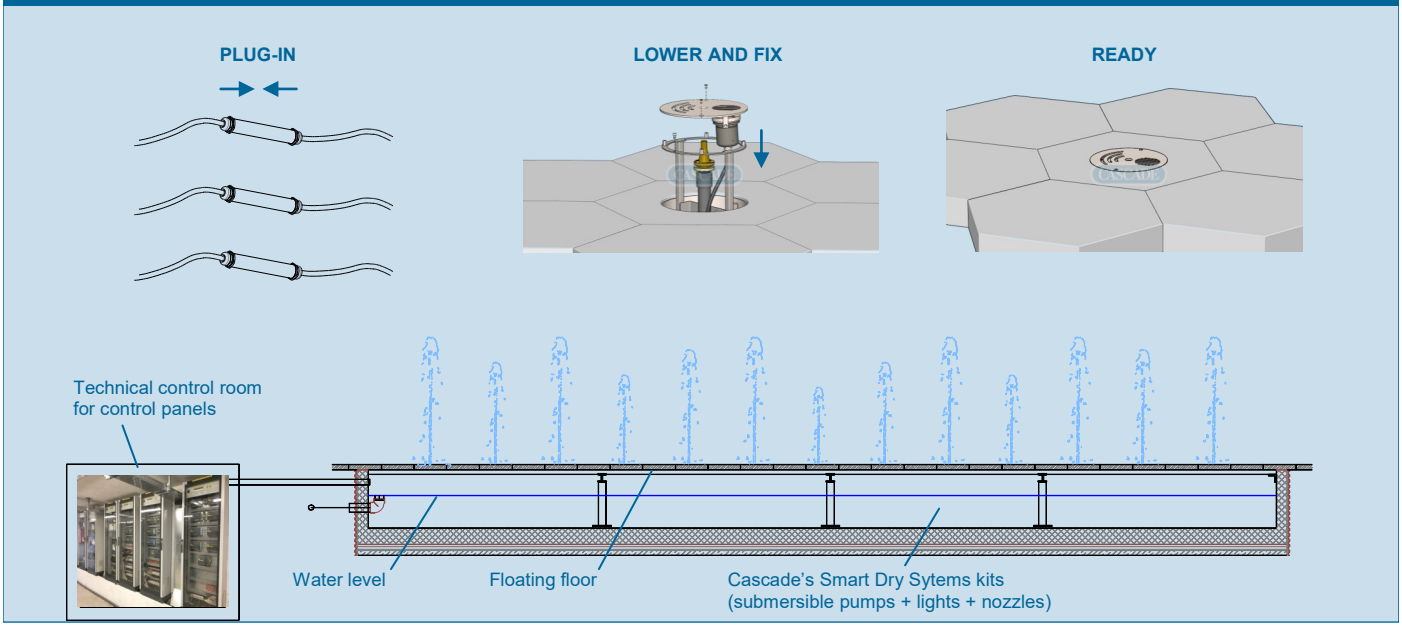

The Smart Dry System is a repeatable, modular and versatile solution that allows to realize dynamic and musical dry fountains of any dimension and of extraordinary water and light effects, since it makes possible to control by DMX protocol each water jet pump and lights individually and independently from the others.

Provided with stainless steel upper plate 5 mm thick, walkable.

APPLICATION

	SMART DRY SYSTEM
UPPER PLATE DIMENSIONS	5 mm thickness (walkable) - Ø variable according to needs
UPPER PLATE MATERIAL	AISI 304 stainless steel (AISI316 on request)
FRAMEWORK HEIGHT	Variable according to underlying pool depth
FRAMEWORK MATERIAL	AISI 304 stainless steel (AISI316 on request)
SUITABLE NOZZLES	CO10P -- CO12 -- CO14 -- SP20
SUITABLE LIGHTS	Mizar 6 Mono -- Mizar 9 RGB -- Mizar 24 RGBW-Ring
SUITABLE LOW VOLTAGE PUMPS	CS 24-80 DMX/PWM -- CS 24-150 DMX/PWM
POWER SUPPLY	24 V_{DC}
CONTROL	DMX (by means of DMX-PWM4 Converter) -- PWM (0-10 V)
CABLES	3 (supply and control for light and pump) - 1.5 m long + underwater junctions
MAX WATER JET HEIGHT*	< 3 m

*maximum recommended water jet height.

ACCESSORIES	CODE
DMX CONTROLLER	**DMX1024**
DMX-PWM4 CONVERTER	**DMXPWM4**
POWER SUPPLY	**AL24024 - AL48024**
PBS8-F EXTENSION CABLE FOR LIGHTS	**CV0534 - CV1050**
H07RNF EXTENSION CABLES FOR PUMP SUPPLY	**CV40**
H07RNF EXTENSION CABLES FOR PUMP CONTROL	**CV2075**
