SKIMMER FOR FOUNTAINS

AISI304 Composite | AISI316 Composite | EASY CLEANING | MADE IN ITALY

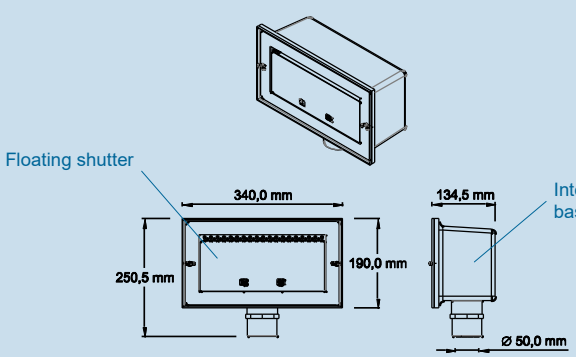

- Made of AISI304 stainless steel (AISI316 on request) and composite
- material
- Small dimensions
- Ideal for thin walls
- Bottom connections

Made of composite material with stainless steel framework, it is complete with frontally extractable stainless steel basket and floating shutter. The skimmer has been designed specifically to be used inside the thin walls of fountain tanks: its small dimensions and the extractable basket make it a functional but also discreet device, with contained aesthetic and structural impact, easily installable and manageable.
